

50 lbs/22.68 kgs
BEEF MINERAL MIX

The Redmond Story

Since the first ranch started using Redmond salt more than 100 years ago, ranchers around the world have reported the same phenomenal benefits: increased productivity, decreased veterinary bills, and healthier herds. You'll see the difference in your herd, no matter the size, and you'll see the difference in your yield.

Natural products are often the best choice to restore an animal's natural balance. Red Edge Beef Mineral Mix starts with more than 63 naturally-occurring trace minerals that are uniquely and naturally found in Redmond Natural mineral sea salt. We then add vitamins A, D and E, and essential elements like calcium, phosphorous and selenium to give cattle the edge they need to reach their potential. Red Edge Beef Mineral Mix helps bring your herd back into natural, healthy balance.

"We pay for Redmond products just with reduced veterinarian calls."
- C. C. New York

"Feeding Redmond Mineral Salt year round eliminates most health problems."
- M. B. South Dakota

Nature has a way of simplifying complex processes, like mineral supplementation for your herd. Your animal's blood contains more than 60 minerals in a synergistic balance that only mother nature can create. So far, science only understands what a handful of these minerals does, and they can't yet explain exactly how they interact.

We trust nature, and nature included over 60 trace minerals in Redmond Salt. Our minerals are mined from an ancient ocean, preserved hundreds of feet underground in Central Utah, without changing the balance that nature created. The result is a mix of minerals remarkably similar to the minerals in your herd's blood. Only nature can engineer a product this close to perfection.

With Redmond Beef Mineral Mix, we have taken this mineral-rich base and added vitamins and minerals your animals need to overcome common foliage deficiencies. It's the best of both worlds—taking advantage of what nature has provided, and adding what science has taught us. Your cows can tell the difference—they prefer it over other mixes—and you will, too.

Feeding Directions: May be fed free choice or mixed with other rations at 3 oz. per head per day or according to nutritionist or veterinarian recommendations. Provide plenty of fresh clean water at all times.

Guaranteed Analysis

	Max.	Min.		Min.
Calcium	4.0%	3.5%	Zinc	3500 ppm
Phosphorus		1.5 %	Manganese	2000 ppm
Salt	81%	76%	Iron	300 ppm
Magnesium		0.06%	Copper	300 ppm
Potassium		0.03%	Iodine	110 ppm
Sulfur		0.07%	Selenium	60 ppm
			Cobalt	50 ppm
			Vit A	100,000 IU/lb
			Vit D	3500 IU/lb
			Vit E	50 IU/lb

Ingredient Statement: *Salt (Mineral Sea Salt), Calcite, Dicalcium Phosphate, Sodium Selenite, Zinc Oxide, Zinc Sulfate, Manganous Oxide, Manganous Sulfate, Copper Sulfate, Cobalt Carbonate, Ethylene-diamine Dihydriodide (EDDI), Organic Oil, Vitamins A, D and E.*

Performance Inspired by Nature.™
