Vitamin D (min).....	1000 IU/lb
Vitamin E (min).....	100 IU/lb
Saccharomyes Cerevisiae (min).....	10 million CFU/gm
Glucosamine HCL.....	1,100 mg/lb

Feed Directions:

Never feed more than 5 pounds per meal, always wait 4 hours between meals of 4-5 pounds.** Feed at a rate to maintain a healthy body condition along with good quality hay or pasture. Start by feeding 5 lbs./head/day and after 2 weeks adjust up or down depending on body condition, this will provide Glucosamine at a rate of 5,500 mg/head/day. For horses with dental problems or who are unable to graze on pasture or hay, SuperSenior can be fed as a complete feed; however, offering long stem forage is still preferred. To feed as a complete feed, start by feeding 12-14 pounds per day in several feedings. Adjust this amount up or down after 2 weeks depending on body condition. To make a mash, add 1 cup water per 2-3 pounds Super Senior pellets. There are no known negative issues with feeding high levels of Glucosamine to horses

Ingredients

Alfalfa, Wheat Middlings, Beet Pulp, Molasses Vegetable Oil Blend, Flax, Canola Meal, Soybean Meal, Vegetable Oil, Forage Products Salt, Sodium Bentonite, D-Glucosamine Hydrochloride, Lignin Sulfonate, Sodium Selenite, Choline Chloride, Vitamin E Supplement, Zinc Sulfate, Ferrous Sulfate, Manganese Sulfate, Selenium Yeast, L-lysine, Copper Sulfate, Vitamin A Supplement, Calcium Propionate (a preservative), Vitamin D Supplement, Ethylenediamine Dihydroiodide, Cobalt Carbonate, Zinc Proteinate, Niacin Supplement, Riboflavin Supplement, D-Calcium Pantothenate, Vitamin B12 Supplement, Zinc Oxide, Manganese Proteinate, Thiamine Mononitrate, Menadione Sodium Bisulfite, Complex (source of vitamin K activity), Pyridoxine Hydrochloride, Folic Acid, Biotin, Copper Proteinate, Cobalt Proteinate.
